OUR STORY

We met through music. We stayed for the feeling.

Before Robby & Ricia became an act, music was already the language between them. When they met online in 2015, one of their first connections was the music they each made: Ricia sang; Robby DJed, produced and added his own voice to his tracks. A Smule performance from Ricia became their first musical spark.

Soon they were creating and performing together - at birthdays, weddings and clubs in Hamburg - with the same instinct that still drives them today: make people move, open up and feel part of something. Now married, the Polish duo brings that connection to every stage. Their goal is not only a full dancefloor. It is the moment strangers sing together, circles form and the room begins to feel like one family.

THE ARTISTS

Two artists. Two voices. One energy.

ROBBY

DJ / PRODUCER / SONGWRITER / VOCALIST

Piano roots, electronic production and a voice that moves between sung and rap-style parts. Robby produces, mixes and masters the duo's music.

RICIA

SINGER / SONGWRITER / LEAD VOCALIST

Singing since childhood, Ricia brings melodic power, emotional storytelling and the unmistakable lead voice at the heart of the duo.

THE SOUND

EDM drive. Polish spirit.

Robby & Ricia create dance music where EDM meets Disco Polo: electronic drive, memorable melodies and Polish spirit. Their sound draws inspiration from southern Poland and Góralskie tradition through communal energy and acoustic colour - including accordion, violin, cello and orchestral elements. House, dance-pop and high-energy EDM shape their live language.

SIGNATURE RELEASE

DON'T LET GO

Written and created independently by the duo. Robby produced, mixed and mastered the track and added vocals alongside Ricia; together they filmed, edited and promoted the complete music video.
